

# Literature Rack (4-Pocket) for 22x28 Metal Floor Frame

Product No. 15097960

INSTALLATION INSTRUCTIONS

## Step 1

Position the literature rack into place by spinning it between the frame legs. Be sure that the frame legs are in between the Velcro pads on the literature rack.

*Do not release the adhesive liner on the Velcro strips yet.*

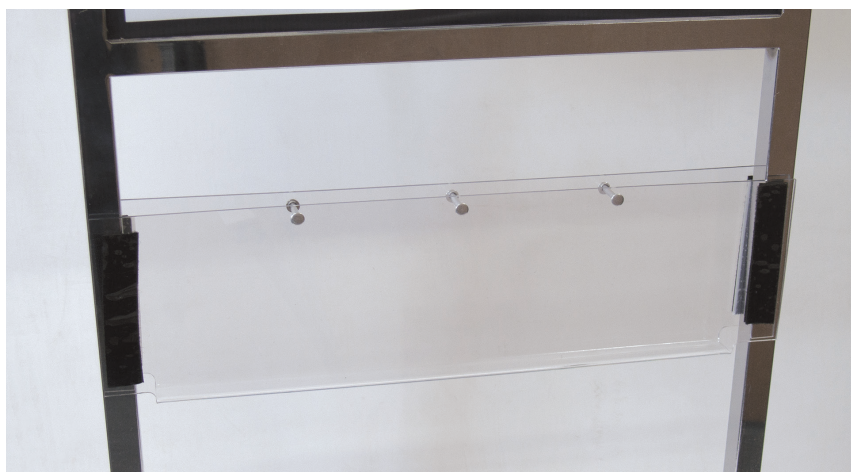

## Step 2

Now that you have the literature rack on the frame, use a ruler to fine tune the position.

For a 9”h brochure, we recommend positioning the rack so the bottom is 10¼” from the frame.

While holding the rack in place, pry apart the sides just enough so you can pull away the Velcro release liner and press firmly against frame. Repeat on other Velcro strips.

You're now done with the installation & may begin using the literature rack.

With any questions please call 1-800-394-1632 for assistance.
