Product#: FZFM07780

by: **DOOR SIX** INC.

BEFORE YOU BEGIN

Be sure all of the following items were included in the box:

- Pedestal Assembly
- Pedestal Base
- Display Assembly
- USB Card Reader
- Product Manual
- Assembly Hardware

1- Unpack Your New Digital Signage System

Open Display Box

Remove Base

Remove Display

Open Pedestal Box

Remove Pedestal Assembly

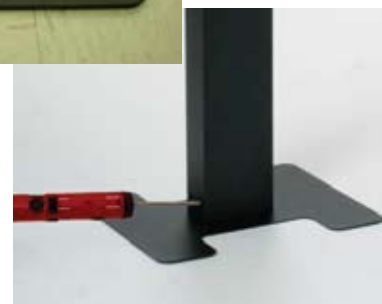

Verify Accessories

2 - Assemble Your New Digital Signage System

- 1) If you purchased an optional wheel kit, locate the wheel kit and install it onto the base following the instructions included with the wheel kit.
- 2) Set the "Pedestal Base" upright on a flat surface.
- 3) Carefully slide the "Pedestal Assembly" onto the base, making sure that:
 - A) Both flanges go inside the bottom of the "Pedestal Assembly".
 - B) The Hole in the bottom of the base is facing the rear of the unit.
 - C) The AC power cord exits through the "Mouse Hole" in the rear panel and that it is not pinched.

*Note: The hole located in the base near the power cord exit provides the capability to bolt the Brightboard to the floor using standard floor anchors.

- 4) Secure the "Pedestal Assembly" to the "Pedestal Base" using the (4) 10-32 x 1/2" black screws that were included in the hardware accessory bag.

- 5) Place the "Display Assembly" onto the pedestal so that it is at a 45 degree angle. Hold it in place using (1) 10-32 x 1/2" black screw.
- 6) Connect the VGA and Power cable to the rear of the display. Secure the VGA cable using a flat head screwdriver.

- 7) Remove the temporary screw and slide the "Display Assembly" completely onto the "Pedestal Assembly" and secure using the (4) 10-32 x 1/2" black screws that were included.
- 8) Plug the system into any available 110 VAC outlet. Congratulations! You have successfully set up your new "Brightboard Digital Signage System". It will automatically turn on and begin displaying sample images that were pre-loaded on the supplied memory card.

Refer to the included "Product Manual" for advanced setup and use.
