1- Unpack Your New Digital Signage System

Open Boxes

Remove Pedestal

Open Display Box & Remove Accessories

Verify Accessories

Place Display On Floor With Bottom Facing Upward

Remove Pedestal Base

2 - Assemble Your New Digital Signage System

Slide Pedestal Onto Base

Screw Pedestal To Base

*Note: The hole located in the base near the power cord exit provides the capability to bolt the Brightboard to the floor using standard floor anchors.

- 1) Place the "Pedestal Base" on a flat surface.
- 2) Pick up the "Pedestal Assembly" from the floor and carefully slide it onto the base, making sure that:
 - A) Both flanges go inside the bottom of the "Pedestal Assembly".
 - B) Hole in the bottom of the base is facing the rear of the unit.
 - C) The AC power cord exits through the "Mouse Hole" in the rear panel and that it is not pinched.
- 3) Secure the "Pedestal Assembly" to the "Pedestal Base" using the (4) 10-32 x 1/2" black screws that were included in the hardware accessory bag.
- 4) Take the bottom foam piece off and slide the bag down as shown.
- 5) Carefully lift the display up and set it onto the Pedestal Assembly. Secure the "Display Assembly" to the "Pedestal Assembly" using the (4) 10-32 x 1/2" black screws that were included in the accessory bag.
- 6) Connect the VGA cable, audio cable and power cord to display as shown.
- 7) Plug the unit into any available 110 VAC outlet.
- 8) Congratulations! Your new "Brightboard Digital Signage System" will turn on and begin displaying sample images that were pre-loaded on the pre-installed supplied memory card.

Remove Bottom Foam

Screw Display To Pedestal

Connect Three Cables

Refer to the included "Product Manual" for advanced setup and use.
